

I love to listen to KLOVE daily at work. I notice how it improves not only my outlook on the day but it also seems to help others around me. If you were to require KLOVE to go to LPFM and we could not listen at work then not only my co-workers and my own outlook be impaired but then we could not spread our joy to customers. The result would be a society with an impaired overall outlook on life. Sad. Also, I enjoy the news on KLOVE. They tell me what is going on in the world and community not only from a day to day fact point of view but they also challenge and feed my spirituality with their news updates. Finally, in a world filled with opinions it is hard to siphon out the truth at times. KLOVE always offers truth to the community and that lowers the stress of the communities citizens which improves the community as a whole. Well balanced citizens are contagious to others just like a well balanced radio is contagious to our citizens. Please help keep KLOVE on the air.
